## STYLE FILE

Spring is in the air, which means one thing: time to kiss those clunky boots goodbye and slip your winter-weary feet into a pair of sassy stilettos. Before you do, prep your feet for pretty shoes with the Microplane Foot File (\$30, shown here), which you can use for a DIY treatment or bring to your next spa visit. The file contains 95 stainless-steel files that work to slough off the dead skin and calluses built up over the winter months. As you gently massage your dry feet with the Foot File, the dry skin will flake off, leaving your feet smooth and soft. —Gillian Tsintziras
