## SMOOTH FEET WITH NEW SALON GADGET

Microplane Personal Care launched its new XL-Pro Foot File at the 2007 International Home & Housewares Show in Chicago.

The file has an extra-large file surface with 175 micro-files that exfoliate bi-directionally to safely remove large areas of callused skin quickly.

With its ergonomic, extended-reach handle, users can uncover healthy skin beneath even the toughest soles. A built-in, no-mess skin receptacle captures skin particles for easy, sanitary disposal.

The gadget will be available for \$29.95 in stores like Linens-N-Things and Bed Bath & Beyond in April.
